Bradford Resource Centre's Library is well known as an invaluable source of information for local trade union and community groups.

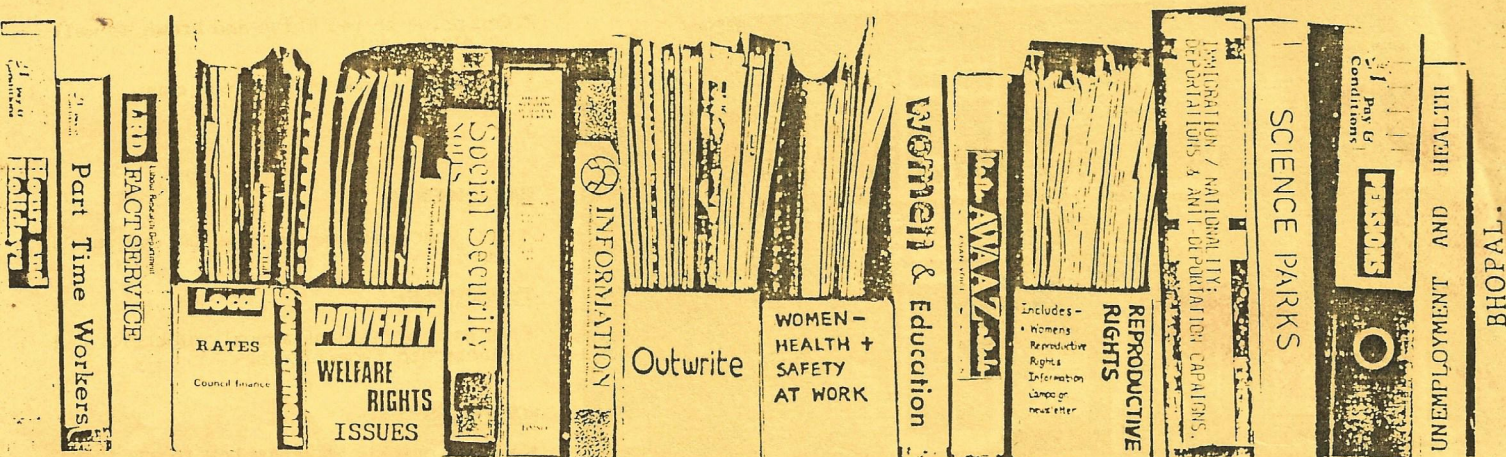

The library is unique in the way that it covers current affairs.

It is made up of booklets, reports, magazines, newsletters and campaigning leaflets from around the country.

But the main part of the library is the newspaper cuttings we take from the local and national daily press.

The library is reference only. There is cheap photocopying available if you want to copy material from the library.

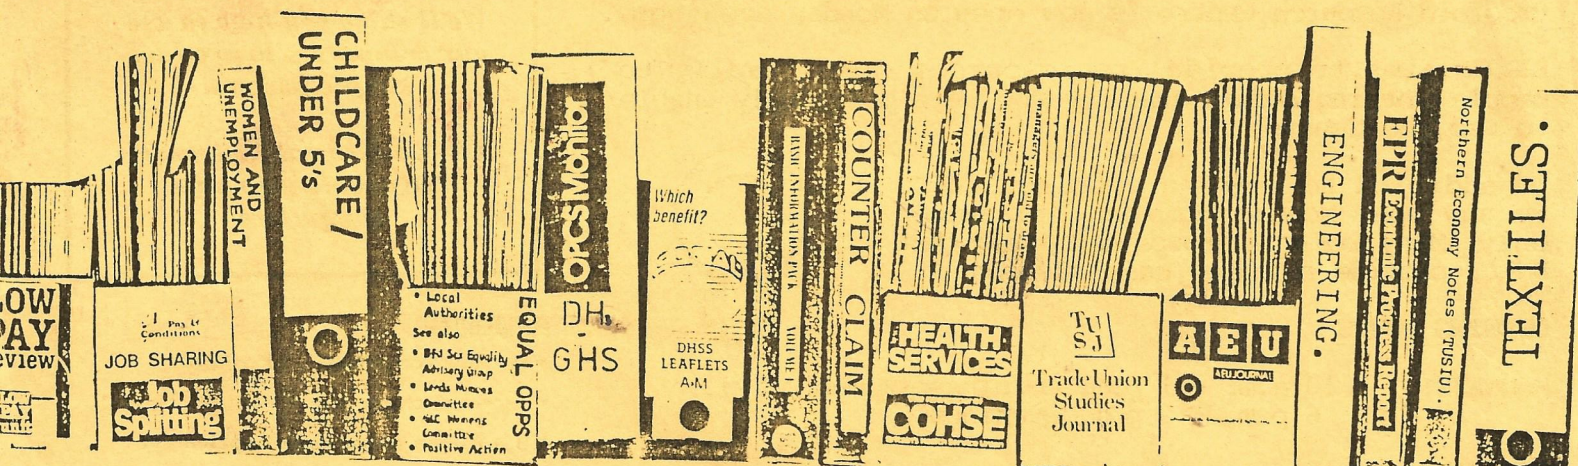

The material in the library is indexed.

Have you ever wanted to find up-to-date information on issues like:

- * the health hazards of using V.D.U.s;
- * the dispute in Dewsbury over education and race;
- * debate within the T.U.C. on single union deals;
- * how the law was used against the N.U.S. in the P. & O. dispute;
- * the numbers of part-timers in the workforce;
- * Bradford Council's changing policies on Gypsies and Travellers;
- * what happened at last year's Trade Union Annual Conferences;
- * the government's Housing Bill;
- * Bradford Health Authority's plans for hospital closures.
- * What happened when the government forced the N.H.S. to privatise;
- * What will happen when the government force Bradford Council to privatise;
- * What is Family Credit? Is it different from Family Income Supplement;
- * What do the "experts" forecast for inflation and jobs in Britain.

We have information on all these questions and many more like them in our library.
